Legislative Division of Post Audit

Website

Mission Statement

"Our mission is to inform policy makers by providing accurate, unbiased information through our audit reports. Our audits help the Legislature by focusing on three core areas – oversight, insight, and foresight. We help the Legislature by providing oversight of state government by evaluating whether agencies are following laws, achieving intended results, and operating efficiently. We also help legislators develop a better understanding of state government by providing insight into how agencies and programs actually work. Finally, in some cases, we provide legislators with foresight by predicting how changing current government structures and systems might affect state costs and program outcomes" (official website).

Note

Kansas does not have an Office of the Inspector General, but some departments, such as the Office of Medicaid, have their own.
